INDEX, 1920

VOLUME XCIV

A

- Abrasive surfacing decreases accidents, American Abrasive Metals Co. 307*
 Abrasive wheels, Efficient 1791*
 Accidents due to washout plugs 28
 Accident investigation discloses disregard of I. C. C. rules 682*
 Accounting, Report on material (Sec. VI—Pur. & Stores) 1820
 Acme Refrigerator Corp., Refrigerator car gas eliminating system 545*
 Adams Mfg. Co., O. R., Short-cut lathe of improved design 424*
 A. G. A. Railway Light & Signal Co., Cutting and welding torch for shop use 490*
 Agreement, The shop 1877*
 Agreement with the shopmen, The national, by Frank McManamy 233
 Air Brake Association convention proceedings 348*, 395*
 Air brakes (see also Brakes)
 Air Brakes, Terminal tests of, by W. P. Borland (Air Brake convention) 350
 Air chuck, Lavoie, Frontier Chuck & Tool Co. 1618*
 Air compressor cylinders, Arrangement for lubricating, Ann Arbor 444*
 Air compressors, Better maintenance of, by Mark Purcell (Air Brake convention)
 Air compressor lubricator, Cross-compound, Neville Lubricator Co. 1651*
 Air compressor stand 800*
 Air consumption of locomotive auxiliaries (Air Brake convention) 395*
 Air hose built like a cord tire, Chicago Pneumatic Tool Co. 1622
 Air line, Separator for compressed 534*
 Air presses for car shop and reclamation work, by F. S. Tinder 458*
 Air required to operate preheaters, Metal & Thermit Corp. 414
 Air signal valve maintenance, by James Elder (Air brake convention) 352*
 Ajax Mfg. Co., Heavy upsetting forging machine 115*
 Alcohols, The cheap denatured, versus the grain-proof alcohol in railway car paint shops, by J. N. Voerge (Painters' convention) 648
 Allan-Diffenbaugh Wrench & Tool Co., Automatic wrench of simple, compact design 610*
 American Abrasive Metals Co., Anti-slip surfacing decreases accidents 307*
 American Car & Foundry Co., Berwick electric rivet heater 428*
 American Expeditionary Forces, Mechanical trades schools of the, by Major C. E. Lester 532*
 American Pneumatic Chuck Co., Pneumatic milling machine vise 114*
 American Automatic Connector Co., Improvements in the American automatic connector 1651
 American Railroad Association, Amalgamation with the 619*
 American Railroad Association—Section III, Mechanical, convention proceedings 1629*, 1705*, 1737, 1793
 American Railroad Association—Section III Mechanical Equipment Painting Division, convention proceedings 641*
 American Railroad Association, Section VI, Co-operate with 1838*
 American Railway Association—Division V Mechanical, Committee appointments of the 688
 American Railroad Association, Section VI—Purchases and Stores—convention proceedings 1813*, 1859*
 American Railroad Association rule 66, Periodical repacking of journal boxes 284
 American Railway Tool Foremen's Association (see Tool Foremen's Association)
 American Society for Steel Treating (see Steel Treaters' Society)
 American Society of Mechanical Engineers, Relative merits of steam and electric traction 757
 American Welding Society holds first annual meeting 380
 Anderson, P. D., Steam gathering pipe as a substitute for steam dome 503*
 Annes shops, Canadian Pacific to extend 383
 Ann Arbor, Exhaust pipe valve 358*

- Ann Arbor, Special locomotive devices on the 444*
 Apprentices, Car department 1911

Apprentices, Special

- College man in railroad work, The 44
 College men and railroad work 1248
 College men on the railroad 1626
 Do we expect something for nothing? 1838*
 Do you want them? 1838*
 Railroad Administration's statistics as to number of 168
 Special Apprenticeship recommended 1774
 The end of the rope 1733*
 "Treat 'em rough" 1767*
 Where there's a will there's a way 1701
 Who pays his salary? 1791

- Apprenticeship in France 720†
 Apprenticeship, The national agreement regarding, by Frank McManamy 235
 A. R. A. billing, by C. C. Stone (C. I. C. I. and C. F. convention) 778
 A. R. A. billing, Report of committee on (C. I. C. I. and C. F. convention) 778
 Arbitration committee, Report of the (Sec. III—Mech.) 1844
 Arc welding (see Welding)
 Armstrong, A. H., Fourteen points for electrification (A. S. M. E.) 759
 Armstrong, George W., Automatic machines an aid to economy 344*
 Armstrong, George W., Cost accounting—the key to cost control 374*
 Armstrong, G. W., Open the shop doors 643
 Ash pans, Report on (Fuel convention) 450
 Ashton Valve Co., Pop safety valve for superheated steam 1623*
 Atchison, Topeka & Santa Fe oil burning practice and fuel performance, by Walter Bohnstengel (Fuel convention) 449
 Atchison, Topeka & Santa Fe, Labor saving devices on the, by J. Robert Phelps 721*, 795*
 Atchison, Topeka & Santa Fe, Tests of refrigerator car 28*
 Autogenous-welding (see Welding)
 Automatic connector (see Connector)
 Automatic Machine Co., Open side planer proves a flexible unit 491*
 Automatic machines (see Machine tools)
 Automatic Transportation Co., Tractors and trailers 1763*

B

- Bailey, G. H., A ball bearing turntable 301*
 Baird Pneumatic Tool Co., A fine rattler which cleans by friction 303*
 Baird Pneumatic Tool Co., Portable pneumatic punch and riveter 610*
 Baird Pneumatic Tool Co., Staybolt cutter adapted for riveting 672*
 Baird Pneumatic Tool Co., Staybolt cutter and yoke type riveter 419*
 Ball joints for Mallet engines, Exhaust and receiver pipe, H. W. Johns-Manville Co. 1622*
 Baltimore & Ohio, Four frame welds in two operations 799*
 Barnstricker, George, Novel chuck arrangement for holding driving box 159*
 Basford, George M., The locomotive as an investment (Sec. III—Mech.) 1743
 Battery, Combination storage, Willard Storage Battery Co. 1762*
 Beading tools, Jig for milling, by C. W. Schane 159*
 Behm, Peter, automatic train pipe connector 585*
 Bearings, Bronze and babbitt 276*
 Bearings, Characteristics of soft metal, by W. K. Frank 276*
 Bearings, Lubrication of soft metal, by W. K. Frank 362
 Bearings, Specifications for soft metal, by H. E. Smith 328*
 Belgian State Railways, Consolidation locomotives 234*
 Bettendorf Co., Swing motion truck 1786*
 Bettis Machine Co., Continuous vertical milling machine 734*
 Bettis Machine Co., Nine speed geared head engine lathe 406*
 Bettis Machine Co., Powerful all-gearred head engine lathe 418*

- Billing, A. R. A., by C. C. Stone (C. I. C. I. and C. F. convention) 778
 Billing, Report of committee on A. R. A. (C. I. C. I. and C. F. convention) 778
 Birch, T. H., Pneumatic clamp for triple valves 462*
 Black & Decker Mfg. Co., Convenient type of bench drilling stand 740*
 Blacksmiths' Association convention proceedings 601*
 Blair, J. K., Adjustable center blocks for crank shafts 608*
 Blake, E. G., Production of lathe and planer tools 384*
 Blocking for cradles of car dumping machines, Standard (Sec. III—Mech.) 1806
 Bohr syphon refrigerator car, Tests of 28*
 Bohnstengel, Walter, Santa Fe locomotive oil burning practice and fuel performance (Fuel convention) 449
 Boiler circulation, Locomotive 1880*
 Boiler circulation: Making steam 1594*
 Boiler compounds; their nature and use, by W. S. Mahlin 71
 Boiler corrosion 368
 Boiler hygiene 1839*
 Boiler Makers' Association (see Master Boiler Makers' Association)
 Boiler plant at Conneaut, Nickel Plate, by J. S. Morris 537*
 Boiler plant report, Stationary 1625*
 Boiler plant, The small 502*
 Boiler plants, Economy at Stationary, by C. M. Rogers 381*
 Boiler plants, Modernization of stationary (Sec. III—Mech.) 1638*
 Boiler taps (see Taps)
 Boilers, Design and maintenance of locomotive (Sec. III—Mech.) 1748*
 Boilers, Modernized stationary 438*
 Boiler washout plugs, Accidents due to 23

Books

- Applied science for metal workers, by W. H. Dooley 63
 Bituminous coal storage practice, by H. H. Stoek, C. W. Hippard and W. D. Langtry 752
 Car design, by L. W. Wallace 439
 Complete practical machinist, by Joshua Rose 63
 Condensed chemical dictionary 257
 Data book for engineers, Locomotive Superheater Co. 752
 Inventions, their purchase and sale 257
 Mechanical world year book for 1920 257
 Metal Statistics, American Metal Market and Daily Iron and Steel Report Proceedings of the American Railroad Assn., Sec. III—Mech., 1919 622
 Proceedings of the American Railway Tool Foremen's Assn., 1919 752
 Proceedings of the International Railway General Foremen's Assn., 1919 3
 Proceedings of the Master Boiler Makers' Assn., 1920 752
 Proceedings of the Traveling Engineers' Association, 1919 752
 Steam Power, by Hirshfeld & Ulbricht. The making, shaping and treating of steel, by J. M. Camp and C. B. Francis 325
 Tin sheet iron and copper plate worker, by Leroy I. Blinn 752
 Woods Westinghouse E-T air brake instruction book 567
 Booster locomotive, Tests of a Pacific type 567
 Booster, Locomotive trailer, Franklin Railway Supply Co. 1875
 Borer, Frank J., Piecework needed to increase production 440*
 Borer, Frank J., Piecework and production 622*
 Boring machine, Cutting lubricant system for, Universal Boring Machine Co. 673*
 Boring mill (see Machine tools)
 Borland, W. P., Terminal tests of air brakes (Air Brake convention) 350
 Boston & Maine, Heat treatment of forming tools for wheel lathes, by Frank D. Kenney 800*
 Bowser & Co., S. F., Cutting oil filtration and sterilization 736*
 Bovergrip for pneumatic hammer, Chicago Pneumatic Tool Co. 116*
 Bradley & Son, C. C., Motor drive applied to power hammers 553*

Page numbers under 1,000 refer to *Railway Mechanical Engineer*; those over 1,000 refer to the *Daily Railway Age*. * Illustrated article; † editorial; ‡ short non-illustrated article or note; § communication.

GENERAL INDEX (Continued)

- Brakes, air.** Terminal tests of, by W. P. Borland (Air Brake convention) 350
Brake attachment. Transveyor, Cowan Truck Co. 241*
Brake beams on caboose car trucks. Applying inside hung, C. R. R. of N. J. 461*
Brake gear. Better foundation, and automatic adjustment needed, by W. H. Sauvage 583
Brake, Klasing hand. National Car Equipment Co. 1832*
Brake pipe ends. Location of, at the locomotive pilot, by W. W. Wood (Air Brake convention) 351
Brake pipes. Emergency connections for, Broschart Threadless Pipe Coupling Co. 50*
Brake repairmen. Test rack for instructing air, by N. T. Cline 153*
Brake shoe and brake beam equipment. Report on (Sec. III—Mech.) 1851*
Brake shoes. Cast steel plate back driver, Standard Brake Shoe & Foundry Co. 1621*
Brake shoes, Reversing. A bad practice, by C. Haines Williams 643
Brake step. Safety tread for, Dunbar Mfg. Co. 1876*
Brake tests. Wheel and ratchet lever 1836
Brake work from the revenue standpoint. Terminal, by C. C. Ferguson (Air Brake convention) 352
Brakes. The efficiency of hand, by George L. Fowler 210*
Brass castings for railroad shops. Heavy 725*
Brasses. Improved method of fitting 302*
Broschart Threadless Pipe Coupling Co. Emergency connections for brake pipes 50*
Brown & Sharpe Mfg. Co. Production automatic milling machine 409*
Brush Pilot Gauge Co. Pilot brush increases gauge life 418*
Buchanan, W. A. Freight car painting 213
Buckley, A. N. J. D. Blount tries a novel experiment 231*
Buckley, Samuel S. Salvaging high speed steel scrap 290
Buckley, T. F. Reclaiming scrap material (Blacksmiths' convention) 607
Buell, D. C. The incentive for higher efficiency (General Foremen's convention) 10
Buffalo, Rochester & Pittsburgh. Drop loops to support stakes inside gondola cars 584*
Bullard Machine Tool Co. Boring mill for heavy accurate work 412*
Bureau of explosives pamphlets 24
Bureau of safety. Annual report of the 26
Bureau of standards. The methods used in heat treating steel 236
Burner, Scarab, London & Northwestern. Burrett hopper bottom for box car 692*
Burrhus, H. L. A measurement record for railroad shops 785*
C
Caillé-Potonié system of feed water heating 569*
Calculations. Facilitating engineering, Montréal Calculating Machine Co. 1788
Canadian Pacific. A self-clearing hopper car built exclusively for grain service 209*
Canadian Pacific. Gang cutters for piston rings 33*
Canadian Pacific. Graphic production control in railway shops 227*
Canadian Pacific hopper bottom box cars 785*
Canadian Pacific. Snow fighting equipment 1722*
Canadian Pacific. Taking up the slack in production 392*
Canadian Pacific to extend Angus shops 383
Carbocal on locomotives. Use of, by George E. Scherick, Jr. (Fuel convention) 452
Carborundum Co. Refractories 1762
Car Inspectors' and Car Foremen's Association convention proceedings 705*
Car
 • **Bearings (see Bearings).**
 • **Braces.** Diagonal, for wooden box cars, C. R. R. of N. J. 459*
 • **Brake gear.** Better foundation, and automatic adjustment needed, by W. H. Sauvage 583
 • **Brakes (see Brakes).**
 • **Building in Russia.** 215
 • **Connector (see Connector).**
 • **Construction, Report on (Sec. III—Mech.).** 1885*
 • **Coupler (see Coupler).**
 • **Damages in yards and in trains.** Railroad Administration report 201
 • **Depreciation.** Report on freight (Sec. III—Mech.) 1843
 • **Door gear for Hartend general service gondola.** National Dump Car Co. 53*
 • **Draft gear (see Draft gear).**
 • **Dumping machines.** Standard blessing for cradles of (Sec. III—Mech.) 1896*
 • **End.** Double channel steel, Hutchins Car Roofing Co. 487
 • **Heating valve improvement in gaso.** Goldfarb Heating & Lighting Co. 1248*
 • **Hoppers.** Safety wrench for opening safety wrench & Appliance Co. 674*
 • **Hose coupling (see Coupling).**
 • **Hose construction of steam.** Improvements, Permanent 678*
 • **Inspection blanks.** Report of committee on uniform (C. I. C. I. and C. F. convention) 782*
- Car—Continued**
- Inspection, Freight, by L. K. Silcox 19*, 93, 149, 216, 285, 463, 526, 587
 Inspection, Systematizing 1766*
 Inspector, Questions for the 221
 Inspectors, Duties in handling tank cars, by J. E. Grant (C. I. C. I. and C. F. convention) 769
 Interchange, Changes in the rules of 520
 Interchange, Discussion of changes in rules of (C. I. C. I. and C. F. convention) 709
 Interchange, Revision of rules of passenger (Sec. III—Mech.) 1841
 Jack, Ball bearing screw, Duff Mfg. Co. 1624
 Journal boxes (see Journal boxes)
 Maintenance (see Maintenance)
 Orders in 1919 15
 Painting (see Painting)
 Plates, Non-corrosive 1791*
 Production, Freight, eight months' figures 698*
 Pullman traffic, The development of 154
 Refrigerator gas eliminating system, Acme Refrigerator Corp. 545*
 Rehabilitate aid 1765*
 Reinforcing (see Reinforcing)
 Repairs (see Repairs)
 Requirements, freight and passenger 5
 Restenciling G. E. T. cars (C. I. C. I. and C. F. convention) 714
 Roof, All-steel flexible, Hutchins Car Roofing Co. 1875*
 Roof construction, Freight, by H. R. Naylor 468
 Roof, Evolution of the 438*
 Running boards, Safety tread for longitudinal, Dunbar Mfg. Co. 1876*
 Safety appliances (see Safety)
 Shock absorber for refrigerator, B. L. Monesmith 737*
 Shop at East Buffalo, New York Central steel 701*
 Shop story: The old way and the new, by Theodore Rudolf 161*
 Side bearings and side frames (see Truck)
 Stake supports for gondola cars, by W. J. Knox 584*
 Stencilling recommended, Uniform (Master Painters' convention) 644*
 Truck (see Truck)
 Underframes for cabooses, Steel, C. R. R. of N. J. 461*
 Wheels (see Wheels)
 Windows, Laminated glass for, E. I. du Pont de Nemours & Co. 548
- Cars**
- Box, 40-ton, cars for the Cuba railroad 523*
 Box, Canadian Pacific hopper bottom 785*
 Box, Rehabilitate the wooden 502*
 Electric, Metropolitan Railway of London, by Frederick C. Coleman 211*
 Electric multiple unit, All-metal, Lancashire & Yorkshire 81*
 Freight, Needed better 682*
 Hartend general service gondola, National Dump Car Co. 51*
 High capacity 1767*
 Hopper, A self-clearing, built exclusively for grain service, Canadian Pacific 209*
 Refrigerator, Comparative tests of 28*
 Refrigerator, Testing 28*
 Hopper, Reinforcing center sills on, C. R. R. of N. J. 459*
 Serviceable, More 1878*
 Tank, Duties of car inspectors in handling, by J. E. Grant (C. I. C. I. and C. F. convention) 769
 Tank, Handling wrecks and derailments involving loaded, by W. S. Topping 157*
 Tank, Report on (Sec. III—Mech.) 1848
 Tank-system flat, River & Rail Transportation Co. 730*
 Wooden, Reinforcing, C. R. R. of N. J. 459*
- Cage** hardening furnace, Regenerative gas, Wm. J. Merton 217*
 Case hardening steel, A new method of, by Wm. J. Merton 716*
 Castings for railroad shops, Heavy brass 725*
 Cast iron for locomotive cylinder parts 694*
 Cast steel frames for electric locomotives, One-piece, Commonwealth Steel Co. 412*
 Center, Adjustable point, Robinson Adjustable Center Co. 523*
 Central Railroad of New Jersey, Car repairs at Elizabethport shops 150*
 Central Railway Club, The labor situation today and tomorrow 245
 Chadburn Ship Telegraph Co., A new type of clear vision window 1885*
 Chesapeake & Ohio, 0-10-0 type switching locomotives 14*
 Chesapeake & Ohio, Huntington shop, Extensive additions to 47*
 Chicago Great Western, Tests of refrigerator car 28*
 Chicago, Milwaukee & St. Paul, New electric locomotives 29*
 Chicago, Milwaukee & St. Paul, Pneumatic clamp for triple valves 46*
 Chicago Pneumatic Tool Co., Air hose built like a cord tire 1622
- Chicago Pneumatic Tool Co.** Boyergrip for pneumatic hammers 116*
 Chief Interchange Car Inspectors' and Car Foremen's Assn. (see Car Inspectors' and Car Foremen's Assn.)
 Chisel, How to make a good 798*
 Christie, Hugh K., Foolish rush in where angels fear to tread 103*
 Chuck arrangement for holding driving box, Novel, by George Barnstricker 159*
 Chuck, Lavoie air, Frontier Chuck & Tool Co. 176*, 1618
 Chuck, Reversible driving, Gustin-Bacon Mfg. Co. 1620*
 Chucks, Air operated 439*
 Chucks, Air operated combination three-jaw, Frank E. Payson Co. 403*
 Cincinnati Ball Crank Co., Compression coupling saves time and labor 410*
 Cincinnati Gear Cutting Machine Co., Spur and spiral gear hobbing machine 612*
 Cincinnati Grinder Co., Self-Contained Internal Grinding Machine 732*
 Cincinnati Lathes & Tool Co., Geared head lathe 174*, 422
 Cincinnati Planer Co., General purpose planer 239*
 Cincinnati Planer Co., Medium sized boring mills 176*
 Cincinnati Planer Co., Recent Improvements in Cincinnati planers 741*
 Cincinnati Specialty Mfg. Co., General purpose automatic extension reel 427*
 Cinder hopper on bottom of smoke arch (Boilermakers' convention) 485
 Clamp and support, Adaptable drill, Poyser-Bucher Co. 741*
 Clamp for triple valves, Pneumatic, by T. H. Birch 462*
 Classification of material, Report on (Sec. VI—Pur. & Stores) 1864
 Classification of scrap, Report on (Sec. VI—Pur. & Stores) 1865
 Clerks, I. A., defends the chief 192*
 Cleveland Automatic Machine Co., Electrical speed control for automatic screw machines 808*
 Clever, Harry, The Nicholson thermic syphon (Traveling Engineers' Convention) 629
 Cline, N. T., Test rack for instructing air brake repairmen 153*
 Coal (see also Fuel)
 Coleman, Frederick C., New electric cars built for British line 211*
 Coals, Possibility of Lignite, by S. M. Darling (Fuel convention) 448
 College men on the railroads (see Apprentices, special)
 Collett, Robert, Locomotive operation and fuel economy 65*
 Columbia Machine Tool Co., Modern refinements in shaper design 310*
 Combustion recorder for flue gases, Mono Corp. of America 546*
 Committee appointments of mechanical division, A. R. A. 688
 Commonwealth Steel Co., One-piece cast steel frames for electric locomotives 141*
 Compressor lifting chain, by A. G. Johnson 47*
 Condenser, New developments in the Wheeler Jet, Wheeler Condenser & Engineering Co. 242*
 Connections between engine and tender, Safety (Sec. III—Mech.) 1707*
 Connections for brake pipes, Emergency, Broschart Threadless Pipe Coupling Co. 50*
 Connector, Improvements in the American automatic, American Automatic Connector Co. 1651*
 Connector, The Beam automatic train pipe 585*
 Conolly, John, Rotary hack saw to cut round holes 740*
 Construction, Report on car (Sec. III—Mech.) 1885*
 Controllers for d.c. motors, Drom-contactor, Westinghouse Electric & Mfg. Co. 1764*
 Convention number, The, A. B. 619*
 Conventions and committees 324*
 Conventions and exhibits, The greatest 1877*
 Conventions, Strictly a business proposition 322*
 Conversion Products Corp., Anti-Rust Compound 512
 Cooler, Electric water Safety Car Heating & Lighting Co. 1834*
 Cooler for lubricating and quenching oils, Griscom-Russell Company 422*
 Cooling compound, Journal, Mohawk Lubricator Co. 241*
 Corrosion, Boiler treatment 368
 Coster, Edward L., Friction forces of the revolving and reciprocating parts in an Atlantic type locomotive 208
 Cost accounting, the key to cost control, by George W. Armstrong 374*
 Cost of locomotive repairs, Reducing the by S. W. Mullins 540*
 Costs, Delaving work because of high rates 1627*
 Costs, Kindred fuel and operating 367*
 Costs, Overhead, rising 386*
 Costs, Poor equipment and operating 374*
 Coupler, Automatic electric multiple unit, Lancashire & Yorkshire 189*
 Couplers and draft gears, Report on (Sec. III—Mech.) 521*
 Crushers, Release couplings for use, Edwin Jones 738*
